

The incomparable beauty of Onyx, the glow, the transparency that the light passes through it, makes it unique piece of art perfection.. for modern or classical space character, always combining beauty and majesty!

The name of the collection comes from the Greek word " Onyx" which means nail.

Pursued to the legend, someday Eros (Deity of Eros) severed the Divine nails of Aphrodite (the Goddess of Beauty), with an arrow when she slept.

Eros left the tracks on the sand, and whereupon the Moirai turned them like the stone.

So as to, the pieces of the God never be lost!
